

Overnight carriageway repairs on the A14 westbound between Girton and Huntingdon starting 16 October (10 nights)

I e-mail to inform you that Kier will shortly be completing repairs on the A14 westbound between Girton and Huntingdon soon, on behalf of Highways England. This work is needed to ensure that the carriageway remains safe. We plan to complete this work overnight, starting Monday 16 until Saturday 28 October, working 8pm to 6am for ten weeknights only, weather permitting. While work takes place over the 10 weeknights, there will be a full A14 westbound road closure and diversion in place from Junction 31 Girton interchange to Junction 23 Spittals interchange, plus a full M11 northbound road closure and signed diversion from Junction 13 at Madlingley to join the signed diversion route.

A14 through traffic will be directed west on the A428 towards St Neots, north on the A1 towards Peterborough and east on the A14 at Brampton Hut to re-join the A14 westbound at Junction 23 Spittals. M11 traffic will be directed to exit at Junction 13 Madlingley and head west on the A1303 and A428 to join the diversion route above. M11 traffic wishing to join the A14 eastbound will be directed at the A428 Hardwick Interchange east towards Cambridge.

The A14 westbound will remain open for local traffic only between Junction 31 Girton and Junction 27 Fenstanton. The A1307 Huntingdon Road, Cambridge will also be open for local traffic wishing to join the A14 westbound. Please note that if you need to drive through roadworks, please do so at 15mph with care, as this remains a live site with operatives at work. Apologies in advance for the temporary inconvenience and local disruption experienced during these works. We will do our utmost to complete the works as quickly as possible, and where possible will complete any noisy works during the early part of each night shift.
